

# Hydrolith BS-T

## Fountain Solution Concentrate - universal

---

### Product Usage

Fountain Solution Concentrate for Sheetfed Offset Presses - strong buffer, also for sensitive thermal plates, universally applicable, for water hardness above 260ppm/ 15°dH Hydrolith BS-T-H recommended

---

### Features and Benefits

- universal usage: for soft, hard and medium-hard water
- strong buffer formulation: fast roll-up of the plate + constant ink-and water Balance
- recommended also for to use with CtP Thermal Plates
- provides faster start-ups of the plates less paper waste
- prevents calcium build-up on the rollers no ink stripping on rollers
- special additives allow to reduce IPA less environmental pollution and cost saving
- effective biocides keep the water circulation system clean
- contains anti corrosive additives

---

### Packaging

20 liter cans, 200 liter drums

---

### Directions

Add 2 - 3% depending on the water hardness for to reach a pH level of 4,8 - 5,3

#### Hydrolith BS-T

For water hardness up to ca. 15° dH / 270 ppm

#### Hydrolith BS-TH

For water hardness above 15°dH/270ppm

---

### Technical Specifications

- form: liquid
- Density: 1,11 g/cm<sup>3</sup>
- Color: transparant -slightly yellowish/brown
- Odour: mild - characterisitc
- Water miscible: yes
- pH value: 4,5

---

### Storage and Shelf Life

Storage: not under 6°C, not above 40°C

Shelf Life: 12 months

Keep container tightly closed

Keep away from direct sun light
